

Founded in 1999, ISPIN AG, based near Zurich Airport, is a successful market player. As a specialist in cyber security and information security, ISPIN AG has excellent know-how and a broad range of solutions and expertise. From technology to organization to people, we offer holistic information security, true to our motto: «**Never let cyber threats harm our customer's business**»!

In our Security Operations Center (SOC) we are looking for an extension of our team immediately

SOC Threat Analyst (f/m)

Your Day at ISPIN:

- Analyze events, flows and alerts and perform advanced analysis of potential security incidents
- Conducting security assessments by performing vulnerability scans
- Analyzing security breaches to identify the root causes
- Monitor SOC owned tools
- On-call duty for handling of critical alerts in the SOC environment

This is you:

- Bachelor's degree or equivalent industry experience (3+ years)
- Experience in security analysis and IT or networking (2+ years)
- Solid knowledge in Linux/Unix OS, Windows, firewall rules, policy and network routing
- Experience working with customers via phone, email or other corporate communications methods
- Excellent verbal and written communication skills in German

The ISPIN-Family is:

- warm, motivating and collegial
- demanding but also promoting
- progressive and focused
- in Bassersdorf at home

Let us in a personal conversation of the tasks at ISPIN inspire and send us your complete documents including salary presentation to recruiting@ispin.ch or contact Thomas Barandun 044 838 48 12. We prefer direct applications. Personnel service providers are kindly requested to note our cooperation conditions at this [link](#).
